### **PROGRAMME**

Moderator: Lucia Gardossi (University of Trieste)

9:00-10:00

Venue and poster posting

10:00-10:15

Welcome addresses by academic and CBC Programme Italy-Slovenia 2007–2013 authorities

10:15-12:30

Presentation of projects and posters

12:30-13:30 Lunch

13:30-15:30

Poster session

15:30-17:00

Thematic groups and oral presentations

17:00-17:30 Conclusions

ORGANIZED AND HOSTED BY **University of Trieste**

#### PAOLA STORICI (PROTEO)

Elettra - Sincrotrone Trieste S.C.p.A S.S. 14 km 163,5 in Area Science Park 34149 Basovizza – Trieste (Italy) T. +39040375885 / M. +393311921484 paola.storici@elettra.eu

Progetti finanziati nell'ambito del Programma per la Cooperazione Transfrontaliera Italia-Slovenia 2007-2013, dal Fondo europeo di sviluppo regionale e dai fondi nazionali.

Projekti sofinancirani v okviru Programa čezmejnega sodelovanja Slovenija-Italija 2007-2013 iz sredstev Evropskega sklada za regionalni razvoj in nacionalnih sredstev.

REPUBLIKA SLOVENIJA MINISTRSTVO ZA GOSPODARSKI RAZVOJ IN TEHNOLOGIJO

### **CONFERENCE**

# **CROSS-BORDER ITALY-SLOVENIA BIOMEDICAL RESEARCH:**

### ARE WE READY FOR HORIZON 2020?

The Cross-Border Cooperation Programme Italy-Slovenia 2007-2013 has funded 6 projects targeting biomedical research. For the first time, researchers from 44 project partners will meet to share their results and future perspectives.

Whom we serve — Can we make it (H2020)?"

February 27, 2014

University of Trieste via A. Valerio 8, building H3 1st floor, room 1B

# CROSS-BORDER BIOMEDICAL RESEARCH: WILL OUR QUALITY OF LIFE IMPROVE?

Six projects, involving 44 different partners, have received 8.48 MLN € from the <u>Cross-Border Cooperation Programme Italy-Slovenia 2007-2013</u>. This investment amounts to 6% of the entire Programme budget (137,6 MLN €) or 23% of the budget assigned to the Programme priority 2 - Competitiveness and knowledge-based society.

- What are the results of this investment?
- Will new scientific knowledge produce any technological innovation?
- /= Is there any benefit for our quality of life and health?

### SHARING EXPERIENCES FOR BETTER RESULTS

After the <u>first meeting</u> that took place at the Conference Centre of the University of Trieste in Gorizia on the 4th December 2013, Italian and Slovene partners aim at further improving their overall understanding of projects objectives, activities, results, as well as skills, assets and networking potentialities.

They perceive that a minimal effort of coordination might reveal synergies and opportunities, point out possible duplications to avoid, and yield better results for both science and society. Furthermore, beneficiaries might be better prepared to successfully compete for Horizon 2020 funding. Thus, they want to meet again.

# WHAT'S NEW AN EFFORT TO MAXIMISE KNOWLEDGE SHARING

POSTERS: a template is provided, so to ease the description of the on-going research activities in an effective and coordinated way. It is encouraged that each research unit is present with more than one poster to maximize the level of exchange of knowledge among projects. >> Download the template from www.trans2care.eu

**PRESENTATIONS:** during the Thematic group section, oral presentations will be done using a **project-pitch template**. It is recommended to give this opportunity to **YOUNG** speakers who will describe their projects, their involvement and results and the impact for the economy and the society in a very short time (max.10 min).

>> Download the template from www.trans2care.eu

TECHNOLOGY READINESS LEVELS (TRL) ASSESSMENT: A team of trained

TRL evaluators will score the technologies displayed in the posters. Volunteers are welcome. A training session will be organised at the University of Trieste (February 11, 2014), led by Dr. Adriano Savoini (T&B Associati s.r.l.), Team Coordinator.

TRL is a scale describing the stages of innovation. The scale goes from idea/early discovery (TRL 1) to research (TRL 2-3) and development (TRL 4-7), and ends with product/service on the market (TRL 8-9). TRL scale is a useful method for assessing results of projects funded by European Structural Funds (such as CBC Italy-Slovenia 2007-2013). Moreover, it is a new tool within H2020 [PDF] to assess impact and specify scope of activities.

### **EXPECTED OUTCOME**

The partners of cross-border biomedical research projects will gain:

- ★ Better reciprocal knowledge.
- ★ An independent assessment of the Technology Readiness Levels of their scientific and technological assets.
- ★ An overall assessment of the innovation stage of the Cross-Border Italy-Slovenia Biomedical Research, to be given to the Programme Managing Authority.

### **LOGISTIC DETAILS**

PARKING: An area close to the meeting place will be reserved for the hosts.

**COFFEE AND LUNCH:** The service and relative costs will be on the participants. Bars and cafeteria are very close to the meeting place.
